I invite my pupils to ask questions, with the assurance that they will be clearly answered.

You Can't Fail

If There's Any "Go" in You

In a rut? Then get out of it. Learn advertising, the new profession; it's uncrowded; it pays well; competent men and women are in demand. The Helms course of ad-writing has been successfully taught by mail for the past two years. The graduates, without a single exception, endorse it. They're all quite willing to do this, because they're all in good positions, obtained and held because

They Know the Business

This course is not taught by "form letters." Every lesson is prepared and corrected by Mr. Helms himself, and is accompanied by a letter personally dictated by him. He has no assistants. Consequently, but two hundred pupils can be taught at one time. Only thirty more will be accepted now. If you're willing to give up about three hours a week, and to ask questions about whatever features of the work are not clearly understood, you may be one of the thirty, and you'll be equipped in four to six months. Only earnest men and women are wanted in this course. Their instructor will be no less conscientious in his work.

Interested? Write at once, for further details, to

THE EDISON PHONOGRAPH

with Mr. Edison's New Reproducer called "Model C" and

EDISON GOLD MOULDED RECORDS

Made by Mr. Edison's latest invention, the Gold Moulded Process, Form the

Greatest Home Entertainment

KNOWN.

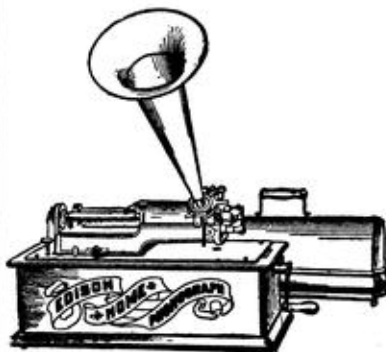

Just as loud and clear as hearing the singer. Just as sweet and harmonious as hearing the Orchestra itself.

The EDISON PHONOGRAPH is infinitely superior to all other devices for home amusement. Not ONE instrument, but ALL INSTRUMENTS in Solo or Orchestra, and the only faithful, enjoyable reproduction of the human voice. Its music is clear, sweet, full-toned and free from all those mechanical noises—the scratching and squeaking—that spoil the music in all other talking machines.

The Edison Phonograph is the only type of talking machine with which you may make records of your own and your friends' voices. It is an inexhaustible amusement.

The Edison Gold Moulded Records are made by the famous Gold Moulded Process invented and patented by Mr. Edison, which cannot be lawfully used by others. This feature, combined with the work of skilled artists, makes Edison Gold Moulded Records the very best the world has ever seen.

The Edison Phonograph is made in Nine Styles costing from \$10.00 to \$100.00. The popular styles are

The Edison "GEM"	- - - - -	\$10.00
The Edison "STANDARD"	- - - - -	20.00
The Edison "HOME"	- - - - -	30.00
The Edison "TRIUMPH"	- - - - -	50.00

Chattel Mortgage Sale

We have 25 sets of a standard Library of Music (The Best Music Library in the World) pledged to us on a loan which is past due and unpaid. To satisfy this debt we shall sell these sets for what they will bring. We are not interested in the cost of manufacturing these books, we simply want back the money we loaned on them. You can own them for less than they cost the publisher to manufacture.

There are 16 volumes in the set—sheet music size. We'll send you full particulars if you write before the sets are all sold.

We will allow purchasers of these sets to pay for them
on the small monthly payment plan if they prefer

*This Library of Music has been endorsed by Emma Eames Story, David Bispham,
Frank Damrosch, Paderewski, Rafael, Joseffy, and many other eminent musicians.*
