The Most Perfect
Razor in the World

TRIPLE
SILVER

THE SECRET is in the wafer blades. These are as thin as paper—double edged—and tempered so hard that

they must be ground with diamond dust. Each edge of every blade will give on an average ten velvet shaves—twenty shaves to a blade. Twenty double blades go with each set, so that you are assured of 400 perfect shaves, without a trace of bother about stropping or honing and without the expense of the extra stropping devices absolutely necessary with every other make of razor. When a blade begins to pull in the slightest, we will sharpen it for 2½ cents, or a new blade will cost you just 5 cents.

All you have to do is shave
We do all the work

Only three smooth, solid, substantial pieces in a Gillette holder. Instantly adjusted for close or light shaving. Cleaned as easily as a silver teaspoon.

Send for our booklet describing the razor. But the razor itself is so convincing—so astounding—that we wish you would send for it on trial. The price is \$5.00 for the silver razor with twenty blades—the gold razor \$12.00.
