Many varied activities in the field of speech occupy the attention of members of the Speech Club during the school year. The members participate in speech contests and compete in various phases of speech work—oratory; humorous, oratorical, and dramatic declamation; poetry reading; radio; and debate. Some contests are divisions of the National Forensic League and the Indiana High School Forensic Association. Others are sponsored by schools in the state and by organizations within the community.

The ultimate goal of every member is membership in the National Forensic League, speech honorary. Membership and advanced degrees in this association are earned by participation in a wide variety of speech activities.
