THE PUPILS' GUIDING HAND, THE COUNSELORS

The times of the teenage high school student are sometimes troubled ones. They need the advice and assistance of those who are older and more experienced in problems such as theirs. The counselors strive daily to help the students equip themselves to meet the problems which face them. These

students have found through the years that this counseling is an invaluable aid to them. They feel there is always someone to turn to in time of need.

The counselors play an important part in the lives of the students of Wiley. They must always be ready to meet any problems which may arise. They must be sympathetic and understanding, which our counselors have been found to be.

DRIVER TRAINING CLASS

For the first time in the city schools, driver training courses were inaugurated. Under the supervision of Mr. Royer over fifty students drove the new training car and practiced backing, turning, starting, stopping and parking

at the stadium. Students recited on Mondays and drove in shifts the remaining days of the week. On the first trip Mr. Royer drove the car, explaining the principles of driving to the students who, thereafter, took over their half of the dual controls. Each student drove six hours and observed eighteen.

INFORMAL MOMENTS

Even the teachers have their informal moments as the Wileyan's roving photographer, Don Martin, discovered. He snapped these casual shots of the faculty at home, at work, and at play.
