RED STREAK

The Red Streak serves a dual purpose. First, it provides students and patrons with news of the school, stimulating school spirit, and provides recognition to school and student body activities. Second, it serves as a workshop for students

with journalistic interests. Under the instruction of the faculty advisor, Mrs. Margaret Jane Adamson, the staff receives experience in publishing a periodical.

The Red Streak staff works on a monthly schedule, from the time the assignment sheets are made out by the editor and news editor to the time the freshly-printed copies are distributed to the student body by Mrs. Adamson's fourth hour English class. Four of the six issues during the school year are printed at Tech's print shop.
