

## SPECIAL STATEMENTS TO PARENTS.

1. Each student is expected to furnish her own lamp, towels, napkins and napkin-ring, two PAIRS of sheets and pillow-cases, one PAIR of blankets, and a clothes-bag or basket; also, two teaspoons and a tumbler for use in her own rooms. These, and all articles of clothing, must be distinctly marked with the owner's full name.

2. It is especially desired that the dress of the young ladies be simple and inexpensive, and that regard be had to good taste and service rather than to fashionable display. Provide clothing suitable for the season and climate, including flannels, woolen hose, thick shoes, overshoes, leggings, and a dress for gymnastic exercises; also an umbrella. All these articles should be bought at the beginning of the school year except the gymnasium suit, which will cost less and prove most correct when made by the college tailor. (See Physical Culture, page 11.)

3. If in any young woman proposed as a student in the College there are any peculiarities of disposition or of health, please communicate it to Mrs. Sarah McCleave Duncan. This is eminently wisest for all concerned.

4. Parents are earnestly requested not to make a practice of sending boxes of cake and candies to their daughters. The loss is greater than the gain.

5. Meals served in rooms are fifteen (15) cents extra.

6. Breakages are at the cost of the student.

7. Parents are particularly requested to have all dress-making done during vacations. It is frequently a great hindrance to the young ladies when done during regular sessions.

8. It is desirable to bring an English dictionary, a Latin lexicon, an ancient and modern atlas. Books of reference for Bible study will be useful, especially a Bible dictionary. A revised version of the Bible is one of the college text books.

9. LAUNDRY NOTES:—Forty (40) cents is charged for each one dozen plain pieces per week. In this dozen is included bed linen. A limited number of table napkins and towels is done at the college expense. Dresses, outer garments, and all heavily trimmed underwear are extra, at prices varying with the garments. Plain pieces beyond the dozen are at the rate of 40 cents per dozen. UNMARKED ARTICLES PUT INTO THE LAUNDRY RENDER THE WHOLE WEEK'S WASH *liable* TO REJECTION AT THE LAUNDRY AND SUCH REJECTED WASHES BECOME NO LONGER A COLLEGE RESPONSIBILITY.

## THE DEPARTMENT OF PHYSICAL CULTURE.

Having so far as possible made the student "at home," the College recognizes as imperative the obligation to keep her daughters well and to undergird all labor with sound physique.

Through the munificence of Mr. W. R. McKeen, the Trustees are enabled to announce the establishment of a well-equipped gymnasium. By the same liberality, Miss Juliette Maxwell has been secured as Director.

Miss Maxwell is a graduate of the Indiana State University and of the Sargent School of Physical Training, Cambridge, Mass.

Each pupil upon entering the gymnasium is given a physical examination, in order that any lack of development may be discovered. She is also questioned in regard to her general health, and from these data a card of exercise is made for her *individually*. By such means, exercise can be intelligently prescribed and satisfactory results secured. The time required in the gymnasium from each pupil is one half hour each of four days of every week, and only a written certificate from a physician, stating that exercise is injurious to her, will excuse any pupil from work in this department. All exercise is adapted to the strength of the individual and is done under the direct supervision of the Director.

FEES:—To regular students in the College, Preparatory, and Under-forms Departments, there is no charge. To all others:—Ten dollars for three months. The fees are payable to the President of the College upon entrance. This department is open to all ladies, whether married or single, and to boys under 12 years of age.

The gymnasium suit, navy blue in color, consists of a blouse waist and divided skirt. Flan-

nel, serge, or tricot may be used. This suit, with the addition of a dress skirt of the same material, forms the school costume. In order that the suits may be uniform in style, it is desirable that no new student have her suit made before the opening of the fall term.

Special attention is given to the amount of intellectual work required, to regularity and quality of meals, hours for study, recreation, rising, retiring, etc. Daily exercise in the open air during a portion of each day is required of all, unless specially excused. The parks of the College, with tennis courts and croquet grounds, furnish ample facilities for recreation out of doors. Where parents desire to furnish their daughters with riding-horses, the College will extend its supervision to this pleasant exercise and will board and keep each such horse for ten dollars per month of four weeks. The drives around the College acres (15) afford an excellent course for tricycle exercise. Machines will be taken care of. In short, the Physical Culture Department is made to minister to the entire work of the College.

### THE BIBLE.

"*I desire that the Bible shall be the chief text book.*" This is the statement of the Founder of the College. In accordance, the systematic study of the Bible is pursued throughout the curriculum, and it is the purpose to give no less time to this than to secular branches. All resident teachers will give instruction in the Bible.

It is proposed to study the Bible itself, rather than its history, evidences, etc. The only text-book needed will be the Revised Version of the English Bible or a parallel edition. Each student is expected to procure such Revised Version. The ends kept in view in this course will be:

1. To secure an intimate and accurate acquaintance with the contents of the Bible, and an intelligent appreciation of it as a literary product.
2. To promote a just comprehension of its language in the light of grammatical structure and historical conditions.
3. To awaken a perception of the realness of the life depicted in its pages as an organic part of the world's life, and so encourage a cordial sympathy with its portraiture of the real and of the ideal human life.
4. By all these means to bring the student to a point of view from which may be recognized that element in the Bible for which human authorship fails to account, and which lies at the foundation of all evidences of revealed religion, and enforces the conviction of an authoritative rule of faith and duty.

In connection with this Bible study, direct attention will be given to the cultivation of those susceptibilities to religious truth to which the Bible ever makes its appeal.
